

Future Skills - Fully Funded Training

Employer Network Future Skills Initiative January - March 2025

This initiative focuses on future skills that will support the construction industry, such as Leadership & Management | Digital Skills | Green Skills / Low Carbon | Retrofit.

The list below covers the type of courses that could be fully funded where an employer identifies a business need. This is not an exhaustive list and courses may or may not be available depending on provision / demand / locality.

Please contact your local Adviser for further information about courses in your area.
